

PRO BONO WHERE BEING A LAWYER MAKES ALL THE DIFFERENCE

Each year, Children's Law Center pro bono attorneys assist hundreds of children and families living on low incomes to resolve critical problems affecting a child's family, health and education. Our pro bono attorneys achieve real results for children and families in need.

Although Children's Law Center is one of the largest civil legal services providers in DC, many more children come to us than our staff attorneys can represent. We are honored to partner with 500+ pro bono attorneys every year. Pro bono attorneys find success with our cases regardless of experience because of our comprehensive intakes and our commitment to high-quality training and mentoring. Taking a pro bono case with Children's Law Center gives attorneys the opportunity to engage in hands-on lawyering that develops their skills and improves the lives of children and families.
